Beginning, Middle, End

A routine for harnessing the power of narrative to observe connections, patterns, & meaning.

Purpose: What kind of thinking does this routine encourage?

This routine uses the power of narrative to help students make observations and encourages them to use their imagination to elaborate on and extend their ideas. Its emphasis on storytelling also encourages students to look for connections, patterns, and meanings.

Application: When and where can it be used?

The routine works with any kind of visual art that stays still in time – such as painting or sculpture. Use Beginning, Middle, or End when you want students to develop their writing or storytelling skills.

Launch: What are some tips for starting and using this routine?

You can use the questions in the routine in the open-ended way they are written. Or, if you are connecting the artwork to a topic in the curriculum, you can link the questions to the topic. For example, if you are studying population density, you can ask students to keep the topic in mind when they imagine their stories. The routine is especially useful as a writing activity. To really deepen students' writing, you can use the Ten Times Two routine with the same artwork prior to using this routine as a way of helping students generate descriptive language to use in their stories.

Share your experience with this thinking routine on social media using the hashtags **#PZThinkingRoutines** and **#BeginningMiddleEnd**.

This thinking routine was developed as part of the Artful Thinking Project at Project Zero, Harvard Graduate School of Education.
